📍 Bangalore, India

Summary

Enthusiastic full-stack web developer skilled in React.js, Next.js, Node.js, and MongoDB, with a creative flair for design using Figma. Strong team player with the ability to excel independently. Beyond coding, I'm a social butterfly, passionate about fitness, trekking, connecting with new people, and experimenting in the kitchen.

Experience

React Application Quality Analyst, Reverr, July 2023-nov 2023

- Conducted thorough testing of Reverr's React JS website, ensuring functionality, and identifying design flaws.
- Authored comprehensive test cases and executed rigorous testing protocols to validate application performance.
- Contributed to code reviews, collaborating with the development team to maintain high-quality code standards.

Projects

College Submission Portal, Final year project 2023 July – present

- Streamlined Project Management: Developed efficient solutions with an intuitive user interface for seamless operations.
- Innovative Problem Solving: Successfully addressed and resolved challenges faced by students during project submission and reviews.

PlanTrax 2024 January – present

- Orchestrated the design of app flows, ensuring a seamless and intuitive user journey. I have meticulously designed layouts for planning, tracking, nutrition, and the dynamic social media section and its features.

SpaceXExplora 2023 December – present

- Pioneered "SpaceExplora": a SpaceX-focused website with captivating content on capsules, rockets, and Dragon missions.
- Enhancing user experience through a user-friendly interface, with ongoing efforts to introduce more features and design upgrades.

Skills

| | | |
|--|--|---------------------------------------|
| Front-end <i>React JS, Next.JS, HTML,CSS, tailwind</i> | Back-end <i>Node JS, Express</i> | Web Designing <i>Figma</i> |
| Database management <i>SQL, MongoDB, Google Firebase</i> | Programming languages <i>Python and java</i> | Data structures and algorithms |

Extra Activities

Github Community, UI/UX Designer

- GitHub Community Leadership: Served as a core team member and UI/UX designer, contributing to web and app design projects within the college GitHub community.
- Events Planning and Management: Successfully played a role in planning and managing various events, showcasing effective organizational and leadership skills.

Education

B.Tech, GITAM university
CSE department
CGPA: 8.23

2020 – 2024 | Bangalore, India
