Experience

React Application Quality Analyst Intern, Reverr, July 2023-nov 2023

- Conducted rigorous testing on Reverr's React JS website, authoring over "150 comprehensive test cases" to ensure functionality and identify design flaws, resulting in improved user experience.
- Contributed to code reviews and collaborated with the development team to maintain high-quality code standards, ensuring optimal application performance.

Projects

College Submission Portal, Final year project 2023 July – present

- Streamlined Project Management: Developed efficient solutions with an intuitive user interface for seamless operations.
- Innovative Problem Solving: Successfully addressed and resolved challenges faced by students during project submission and reviews.

Admin Dashboard for dental clinic 2024 March – present

- Developed an intuitive admin dashboard for a dental clinic, facilitating streamlined management of appointments, patient records, and financial transactions.
- Implemented features for scheduling appointments, managing patient data, generating bills, and monitoring clinic finances in real-time, alongside inventory management for stock availability and vendor details.

Extra Activities

Github Community, UI/UX Designer

- Served as a core team member and UI/UX designer in the GitHub community, completing three design projects for the college and contributing to web and app design initiatives.
- Demonstrated leadership by planning and executing three major events, showcasing effective organizational skills, and fostering community engagement.

Strengths

Strong communicator, Willingness to learn, Results and detail-oriented, self-directed, Team player, self-starter, Go-getter
